Profiles

● [AlbertNjobo](#)

● [in Lawrence Njobo](#)

Experience

● The Institute of Chartered Accountants of Zimbabwe (ICAZ)

ICT Intern

Harare, Zimbabwe

Sep 2024 -

- Engineered an end-to-end **Procurement System on Microsoft Power Platform**, integrating AI Builder for document processing and dynamic approval routing, modernizing a critical business function.
- Spearheaded the deployment of a **Freshdesk helpdesk system**, achieving **100% tracking of all IT support requests** (up from untracked emails) and establishing the first-ever analytics for support performance.
- Led the **Server Infrastructure Upgrade Project**: specified requirements, procured, and deployed two new Dell PowerEdge R450 servers, establishing a Proxmox virtualization environment to enhance reliability and capacity.
- Administered core systems including **Microsoft Dynamics CRM** (executing bulk data operations), **Moodle LMS**, and **Snipe-IT CMDB** for comprehensive asset management and tracking.
- Configured and managed enterprise security and communication systems including **Sophos security solutions**, **Active Directory/Entra ID**, and **Grandstream VOIP**.

● Extern

AI Risk Landscape Market Research Externship

Jun 2024 - Aug 2024

Executed thorough secondary research to identify, analyze, and classify prevalent AI risks Conducted comprehensive secondary research on AI risks and cataloged them as per the AI risk framework F

Education

● National University of Science and Technology

Bachelor of Science Honors Degree in Computer Science

Aug 2022 -
